Provider's Choice Medical Billing Selects HealthFusion

10.06.09, 1:00 PM EDT

Solana Beach, CA – Tuesday, October 6, 2009 – Provider's Choice Medical Billing, representing more than 170 physician practices, has selected HealthFusion® for its clearinghouse and insurance claims services. After a comprehensive review and selection process, Provider's Choice selected HealthFusion based on the company's easy, Web-based access, low costs and outstanding customer service.

"HealthFusion is the clear leader in the marketplace, particularly when it comes to ease of use and low cost. The company's Web-based system makes it easy for our customers to utilize their services, without the expensive add-ons of additional hardware and software. HealthFusion's system has been designed with the small physician practice in mind, so the work flow is simple, easy to learn and, most of all, successful in reducing the number of denied claims and increasing office revenue," said Ronald Bates, President, Provider's Choice Billing.

Bates said that HealthFusion's focus on superior customer service was also central to the company's selection as its sole practice management and clearinghouse software provider. "HealthFusion has set an industry standard for addressing customer questions and quickly resolving customer concerns. Where it can often take days or even weeks with some companies to resolve claims issues, HealthFusion has made it their company policy to address questions within the first 24 hours. This is the support we need as a billing service to keep our own customers happy and resolve their questions and concerns quickly," Bates added.

HealthFusion is a leader in the industry dedicated to customer service excellence. In light of this commitment and confirmed by its own customers' feedback, HealthFusion has been recognized for the past two years in a row by J.D. Power and Associates for providing "An Outstanding Customer Service Experience." HealthFusion is the only company in the industry to receive this recognition.

"We at HealthFusion are thrilled with this new partnership and look forward to addressing the diverse needs of Provider's Choice Billing's large customer base. We understand that billing services depend upon a system that is adaptable and responsive to the individual needs of each particular practice. We are working in partnership with Provider's Choice to make sure we are meeting the unique needs of every one of their customers, whether it is a single family practitioner or larger group specialty practice," said Dr. Sol Lizerbram, Chairman of HealthFusion.

HealthFusion is the customer-focused, Web healthcare software solution for Practice Automation and Revenue Cycle Management to help Medical Providers "go digital" and Billing Services succeed. Founded by physicians in 1998, HealthFusion is a leading national Clearinghouse and Practice Management System for Web healthcare transactions that connects providers with over 2,000 insurance companies and supports billing, scheduling, claims submission/status, real time eligibility, denial management, electronic remittance advice, electronic prescribing, PQR1, and reporting. HealthFusion's solutions are affordable, quick to deploy, and easy to use, and reduce overhead and increase revenue through better collections. For more information, visit www.HealthFusion.com.
